Product Information:

Magnetic boards are made of metal sheet, which allows magnets to be attached. The product is available in various designs, sizes, and frame colors. The boards are equipped with two metal mounting brackets on the back, allowing the product to be hung either vertically or horizontally – depending on the customer's preference.

Installation Instructions:

1. Make sure the mounting brackets are properly attached to the back of the board.
2. Mark the spot on the wall where you want to install the chosen bracket, then insert the mounting screw.
3. Using the selected bracket on the back, hang the board and check its stability.

Cleaning and Maintenance:

The board should be cleaned with a soft, dry or slightly damp cloth. Do not use abrasive cleaners or aggressive chemicals that may damage the printed surface or the frame. Regular wiping will help maintain the board's aesthetic appearance and functionality over time.

Important – Safety Precautions During Use.

The board is made of metal and has a rigid frame – improper use may cause injury. Install on a stable surface using appropriate mounting hardware. Do not place the board in areas exposed to vibrations or risk of falling. Frame edges may be hard – handle with care when moving. Keep small mounting components out of reach of children. If the product is damaged, discontinue use immediately. The board is intended solely for attaching magnets – it is not suitable for writing with markers or chalk. Do not use magnets or accessories with sharp edges that may damage the printed surface. The product is not waterproof – prolonged exposure to moisture may cause corrosion or damage to the frame.
